ISSTSPi®

BRINGING A CHANGE OF COLOR TO

INTEGRATED IT PRODUCTS AND SERVICES

Providing a Color of Innovative Change for Transforming Your Operational Readiness

Transforming Your Operational Readiness for the New Millennium

Meeting the challenges of today's federal government and rapidly changing IT requirement needs in defense, healthcare, security, bio-science, administration and intelligence requires a new type of company who can rapidly address and solve the needs of an ever transforming IT environment.

ISSTSPi is bringing a new color of innovative change and expertise for IT enterprise transformation in Advanced Network Infrastructure, Cyber Security, Big Data Analytics, IoT, Computing and Mobile IT Solutions for federal clientele worldwide.

We're a new kind of company bringing a color of innovative change and new solutions combined with best-of-breed partner products for transforming government operational efficiencies and readiness for current and future needs.

As your organization evolves, the ISSTSPi team provides best practices and methodologies for determining the most appropriate implementation strategy which best addresses government management needs, goals and objectives for the future.

Bringing the Right Experience and Solutions

ISSTSPi is a certified service-disabled Veteran-Owned small business and is a trusted IT provider with over 200 years of combined information technology and business expertise. We deliver customized integrated solutions with best-of-breed commercial and open source components, built to meet specific client requirements.

We direct your efforts with a dedicated program management and integrated services team who have significant experience and understanding of the unique needs of the federal government. From initial implementation, to integration, training and technical support, ISSTSPi is an end-to-end solutions full system lifecycle provider. Our industry certifications include CMMI Level 2 (software), CMMI Level 2 (service) and ISO9001:2008.

Professional Services

ISSTSPi creates solutions that help our customers improve operational efficiencies and boost productivity. Our core strengths lie in designing and implementing cost effective secure, enterprise-wide systems and networks- from hardware and software acquisition to application development and full integration.

Let the worldwide ISSTSPi team bring a color of innovative change to your organization and its operational readiness.

Ensuring Your Procurement Success

ISSTSPi facilitates and streamlines the procurement process through utilization of our contract vehicles which can provide rapid response and delivery to meet your critical mission needs.
